## NUXATED IRON

"My Doctor Prescribed This Nuxated Iron Like Magic"

Physician Says Nuxated Iron Quickly Puts Astonishing Strength and Energy into the Veins of Men and Brings Blood to the Cheeks of Nervous, Run-Down Women.

Ask the first hundred strong, healthy people you meet to what they owe their strength and energy and how many reply "Nuxated Iron." Dr. James Francis Sullivan, formerly Physician of Bellevue Hospital (Outdoor Dept.) New York, and the Westchester County Hospital, says: "Thousands of people suffer from iron deficiency, but do not know what to take. There is nothing like organic iron—Nuxated Iron—to quickly enrich the blood, make beautiful, healthy women, and strong, vigorous iron men. To make absolutely sure that my patients get real organic iron and not some form of the metallic variety, I always prescribe Nuxated Iron in its original package. Nuxated Iron will increase the strength and endurance of weak, nervous run-down folks in two weeks time, in many instances."

Manufacturers' Note: Nuxated Iron recommended above by Dr. Sullivan can be obtained from any good druggist, with or without a physician's prescription, on an absolute money-back guarantee of success or money refunded.

## M'ADOO APPROVES WAGE INCREASES FOR RAILROADS

### Keynote Of Rail Wage Increase

"In fairness, therefore, a sufficient increase should be given to maintain that standard of living which had obtained in the pre-war period, when, confessedly, prices and wages were both low. 'Not one dollar more than justice at this time requires. It will make hard places smoother for those who are in sore need. It gives no bounty. It is not a bonus. It is no more than an honorable meeting of an obligation.'"—The Railroad Wage Commission.

A full dinner pail for all is to be the Government's policy toward the National Railroad employees during the war.

Formal announcement of the Railroad Wage Commission's report, advising that wage increases for all railroad workers making less than \$250 a month in 1915, was followed today by assurance that Director General McAdoo approves the increases proposed—and may extend some.

**To Hold Conference.**  
Before acting upon his commission's report he will confer with representatives of the employees to determine whether the new schedule—amounting to increases of nearly \$300,000,000 annually with \$100,000,000 back pay to January 1—would work hardship on any class of workers.

The policy of the Government toward its labor is clearly set forth in the digest of the report, an excerpt from which declares: "Organized and unorganized employees are to be treated alike. Women and men who perform equal service are to be given equal pay, and differences in pay are not to be predicated on color." In reaching its conclusions the Wage Commission declined to accede to many requests made by the employees. The contention of the men that they wanted a shorter day and more overtime to enforce it was met with the following from the commission report:

**Would Penalize Government.**  
"At this time, when urgent and serious necessity compels sacrifice from all, to penalize the Government for working its men as long as they have been in the habit of working under their private employers is to take advantage of the two-fold embarrassment of the Government—its need for the work, and its inability to call in outside men. The commission does not believe the railroad employees really want thus to hamper the transportation facilities of the country in its hour of need."

It would be "a splendid thing," says the commission, "if we could at this time crystallize the experience of the world into a conclusion concerning the length of the work day that would be of universal application. But this is not possible now for many reasons, not the least of which is an insufficiency of data touching so many and such diverse employments which call for such suffering strains upon human nerve and muscle."

**Speed In Output Needed.**  
Declaring that "this, moreover, is not the time to make experiments," the commission adds that "the one thing now imperative is volume and speed in railroad output. Our needs as a nation and the vital needs of those nations with whom we are allied have been imperiled by the shortcomings of our transportation system. There is no one who wishes to risk a repetition of this condition."

The increases proposed by the commission are based on the premise that the cost of living since 1915 has increased approximately 45 per cent, shown by a thorough study of actual living conditions. The commission recommends "that during the period of Government conduct of the railroads, no salaries paid to officials who are not essential to the operation of the roads shall be charged as part of the operating expenses, and that a careful study be made of the proper relation between the salaries of the higher officials and those of their subordinates with a view to readjustment in the interest of the highest efficiency of the service."

## OWNER OF HOUSE SAYS SALE NOT "COLORED"

Declaring that the proposed sale of the Alabama apartment house has been characterized by the Council of National Defense as a war necessity, Bates Warren, one of the owners of the building, has sent an open letter of protest to Senator Jones, denying the sale was in any way a "colored sale."

Almost every automobile and building fluttered a flag; then we were in the first enthusiasm over our entrance into the war; our enthusiasm is greater now, so why do we not flutter Old Glory as we did last year? Working in a War Garden, be sure that you are properly garbed in Womanlike, those sensible garments made of navy denim; no skirts to get drabbled or snagged. Ask to see them in the Underwear Department, on the Third floor, F street.
